## TECHNICAL REQUIREMENTS ELECTRIC FIELDS

### STAGE:

**Round disc screen, corresponding to dimensions of platform square (eg if square is 10m x 10m, disc is 10m diameter)**

Raised platform square (steeldeck or equivalent) sized to fill stage, at an angle to stage edge

Black stage floor for rest of stage

White canvas sheeting stretched to cover deck and edges

Four black wooden chairs

Misc cables and microphones on stage, (practical and set dressing)

### VIDEO:

1 projector (Panasonic, brightness corresponding with venue size and distance from screen) front projecting onto disc screen

2 projectors (Panasonic, brightness specified per size of venue and distance from deck), projecting onto the floor deck

Video performance software and hardware (provided by Lightmap)

Video switcher and all projector hardware for cabling and redundancy (provided by venue)

### LIGHTING:

LED strip around bottom of deck to create "floating" deck on black floor

Overhead pin specials on singer, keyboards & pianists

4/6 footlight specials at platform edge
